GUAJALOTE RANCH
SHEEP HILL
DILLEY
TEXAS

Feb 10 - 1952.

Dear Dr. Seel:

Reservations have been made here in San Antonio for us both. Departure from S. Antonio 8:10 P.M. Feb 25th on Eastern Air Lines, Flight 586 out of S.A. for Houston, Flight out of Houston for Atlanta 948 W, and Flight out of Atlanta for S. Juan P.R. 101, ^{arriving there at 9:55 P.M. 26th} Round Trip 288.19 each. Better wait till after we arrive to make return date reservations. I do not want to hurry off.

Prof. Liker has invited us to stay with him months ago. But for sake of seeing friends and Alencini Costello would be almost necessary. " is easily found and no one would be inconvenienced by calls. Since Mrs. Starkis cannot get up and down stairs rapidly a first floor disc Costello would

facilitate her rapid answer to a caller. She has shown me her improvement during the last few days, in answer to prayer.

This may be our last trip to P. Rico and we want to see especially all the surviving members of the original twelve students and all the members of the class of 1927.

Dr. Valey asked me about the names of the different hills in Paly, so I have had the reprint of 200 of the Master Plans sent to him by the Clegg Co. of San Antonio - in orange green and yellow ripe orange colors. It is very hard to get the exact colors of the ripe fruit and of the leaves, but the printers say they did it in their job. I hope so.

Looking forward with anticipated joy of going back home to Paly once again Mrs. Harris joins me in thanks for the cordial invitation extended by all.

Cordially yours
J. W. Harris
