Letter -

Thank you for your letter. It showed me how very cloudy I left the details of The Steps. Stronglight made it part of the Library Bldg. through separate fire. " Now that the Chapel is being thought of in location of master Plans Library - - - The Chapel will doubtless (when built I hope not till 1933) have a dome probably like the end of S. Hall porch only immensely larger.

The Pavilion over the Steps can now be made into a shell or oval roof supported by columns as indicated.

Your letter called my attention
to the need of getting my history
of Poly to the Press at earliest
date possible. I have cancelled
my trip for the present to N.Y. and
will bow my back to see if I
can within a short time get
the book out.

Thank you again for your
letter that helped me to
get busy on my termination
of the Poly Hist.

J. Mill Harris
