CLELAND BOYD McAFEE  
172 MACON AVENUE  
ASHEVILLE, N. C.

Mr. and Mrs. McAfee have received with appreciation the invitation from the Trustees and Faculty of The Polytechnic Institute of Puerto Rico to attend the exercises celebrating the Twenty-fifth Anniversary of the Institute. While they deeply regret that acceptance of the invitation is not possible, they wish to take this occasion to express their sincere and abiding interest in the Institute and their good wishes for its future. It has been their good fortune to know the retiring President, the Rev. Dr. William Harris, for many years and they have observed his zeal for the advancement of the Institute under some very trying circumstances. They extend to his successor, the Rev. Dr. Jarvis S. Morris, their felicitations upon the large opportunities opening before him in his new position. The problems of education at this time are perhaps more serious than at any time in recent years and friends of young people owe to those who attempt the solution of those problems the fullest possible support and encouragement. They trust he will receive his full measure of this.

Asheville, N.C.,  
February 13, 1937.
